# Time Saving!

## **Time is on my side, yes it is.**

Time after time. Time waits for no one. Tick Tick Ticking away. If i could turn back time. Does anybody really know what time it is? Does anybody really care? Do you remember the time?

Time changes make me think about time. The time that has passed. The time in the future. The time that is now. I am looking forward to springing ahead this weekend though. The time is here to sit on the porch, listen to the birds singing and the squirrels running up and down the back fence. It's time to plant flowers and make beautification of the backyard a priority. We spring ahead this weekend, so best feet forward. Jump into the time change! Absorb the nature!
